Rarefaction curves: mean pairwise distances of RAW distance matrix in epoch-length bins
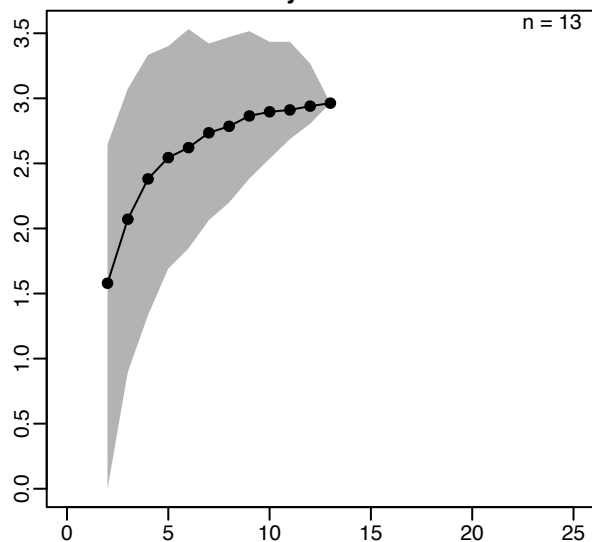

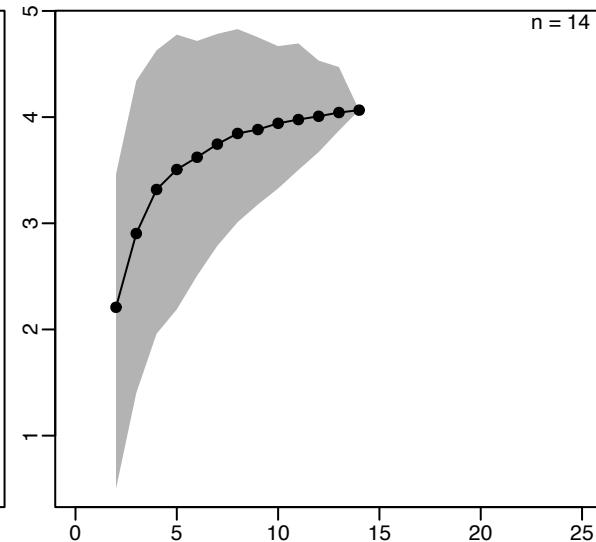

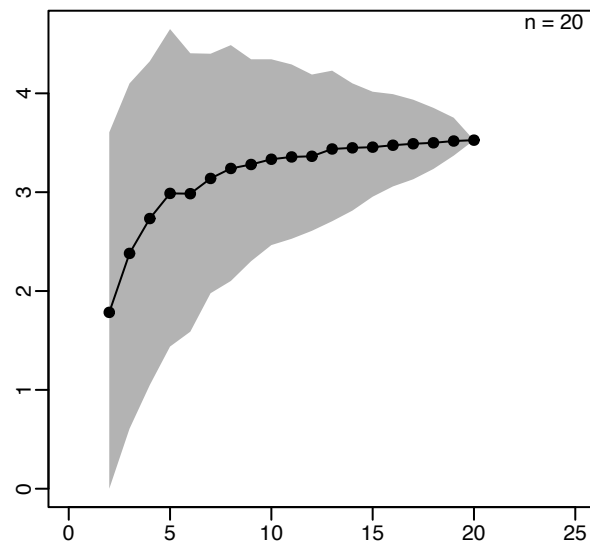

Early Triassic

Late Cretaceous

Mean pairwise distance

Taxon count

Rarefaction curves: mean weighted pairwise distances of RAW distance matrix in epoch-length bins

Rarefaction curves: mean pairwise distances of RAW distance matrix in 10 Ma bins
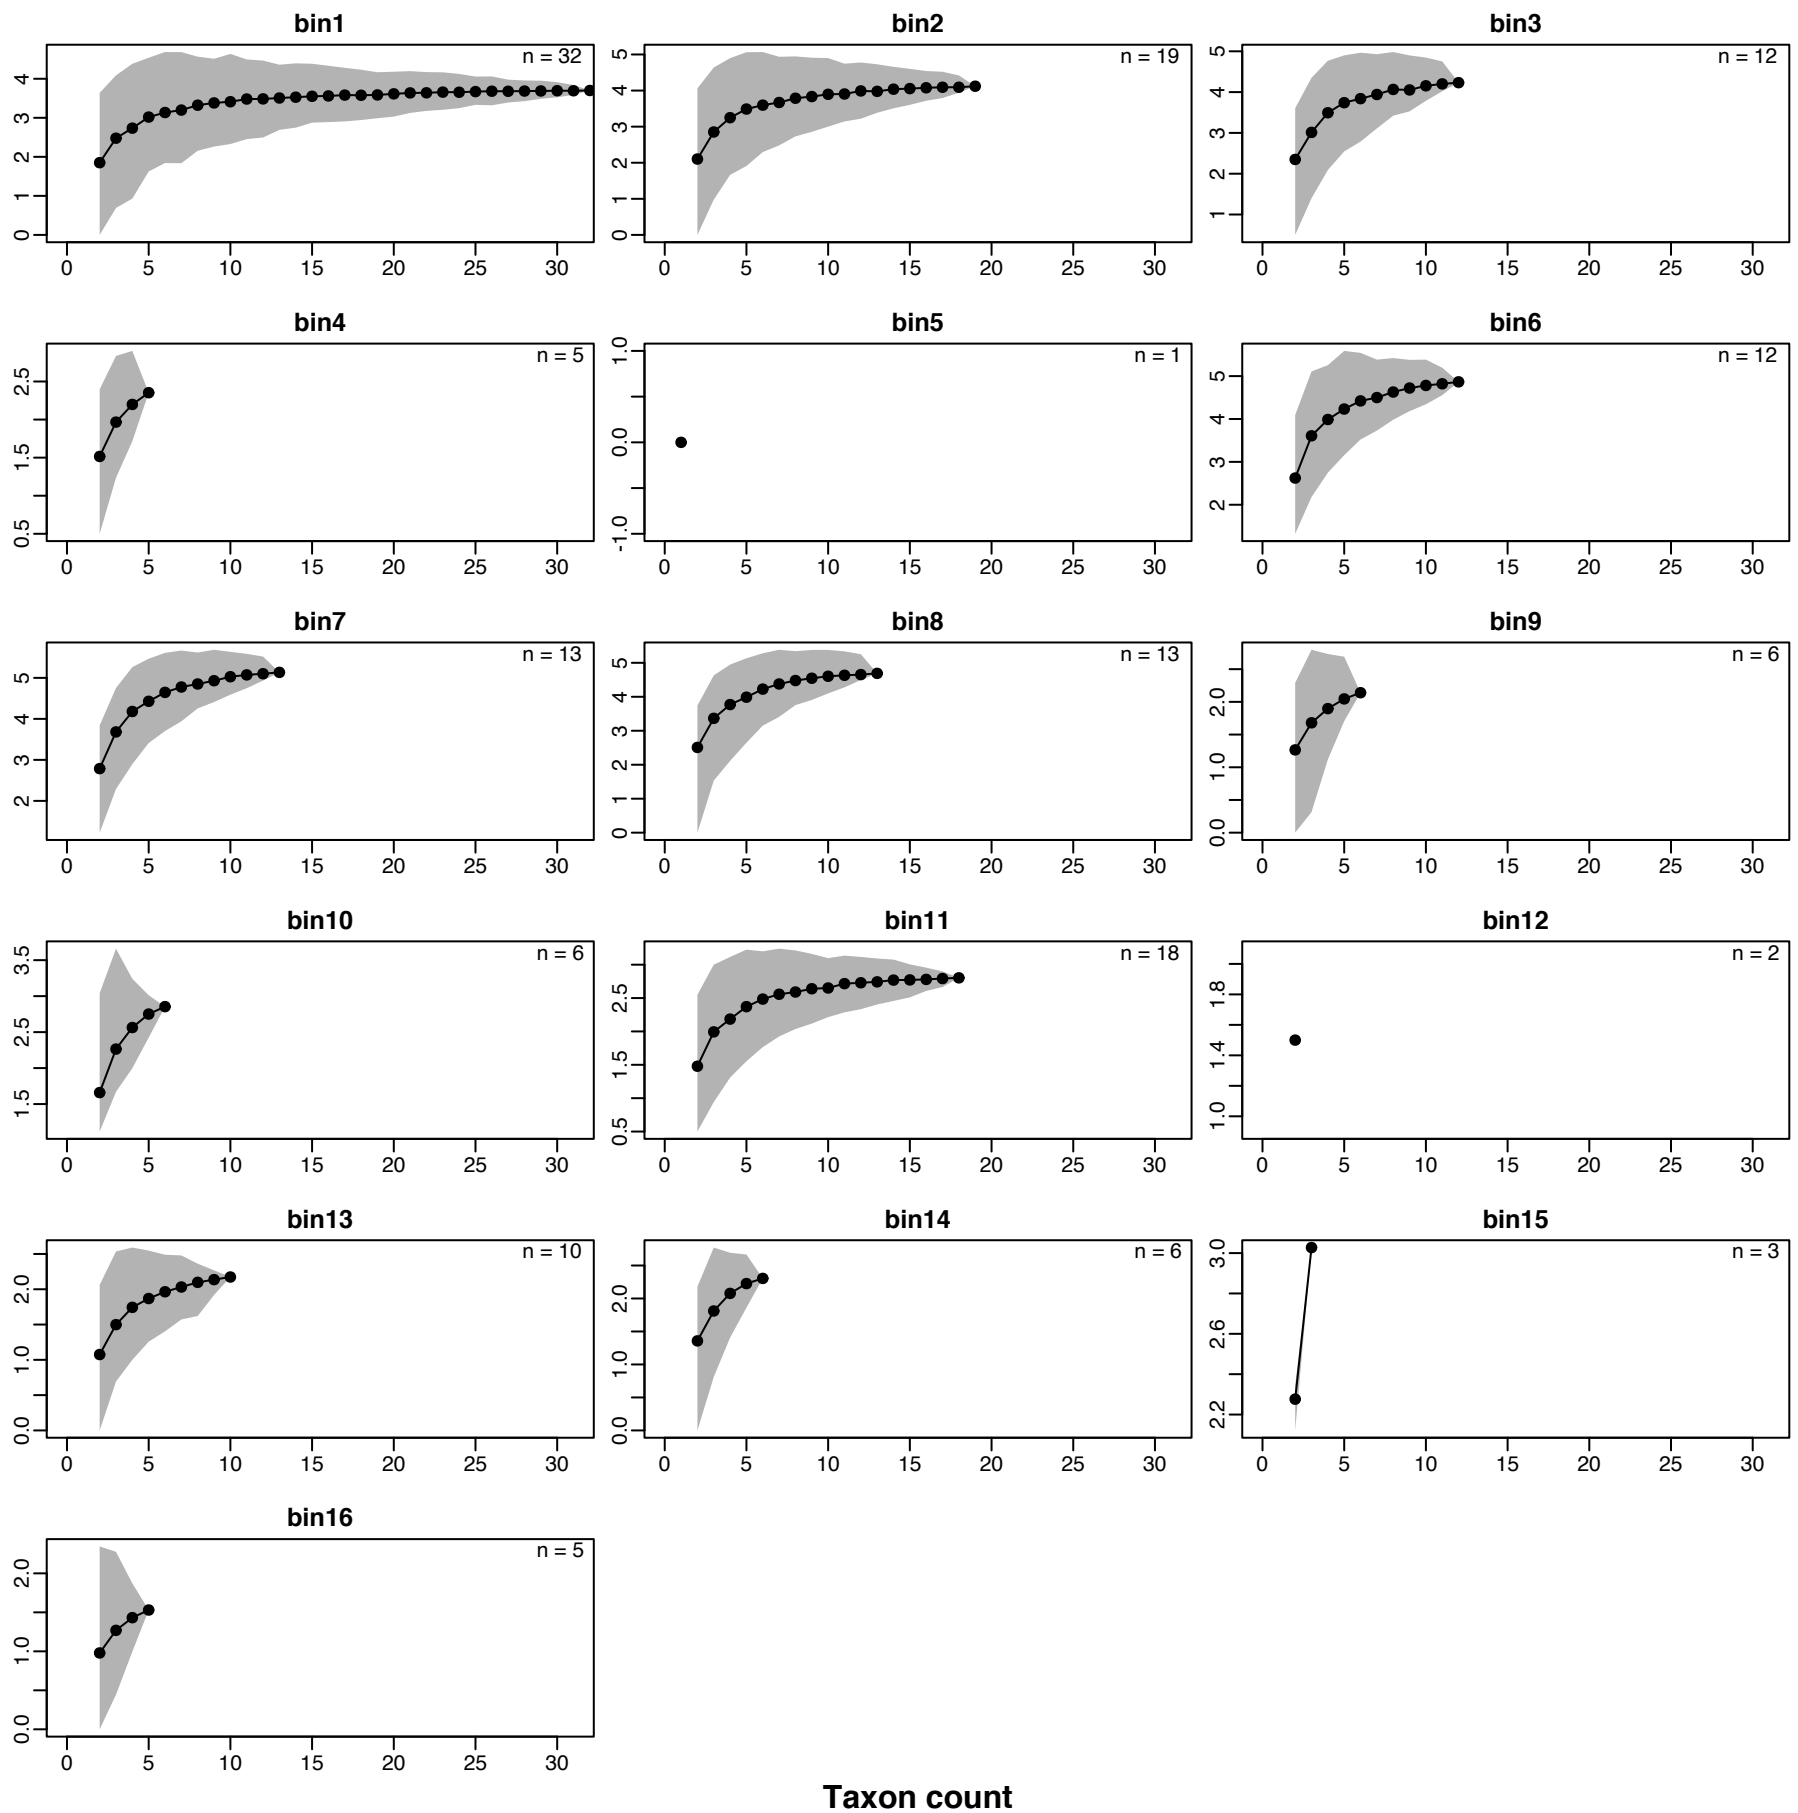

Mean pairwise distance

Taxon count

Rarefaction curves: mean weighted pairwise distances of RAW distance matrix in 10 Ma bins

**Rarefaction curves: mean pairwise distances of GED distance matrix in epoch-length bins**

Rarefaction curves: mean weighted pairwise distances of GED distance matrix in epoch-length bins
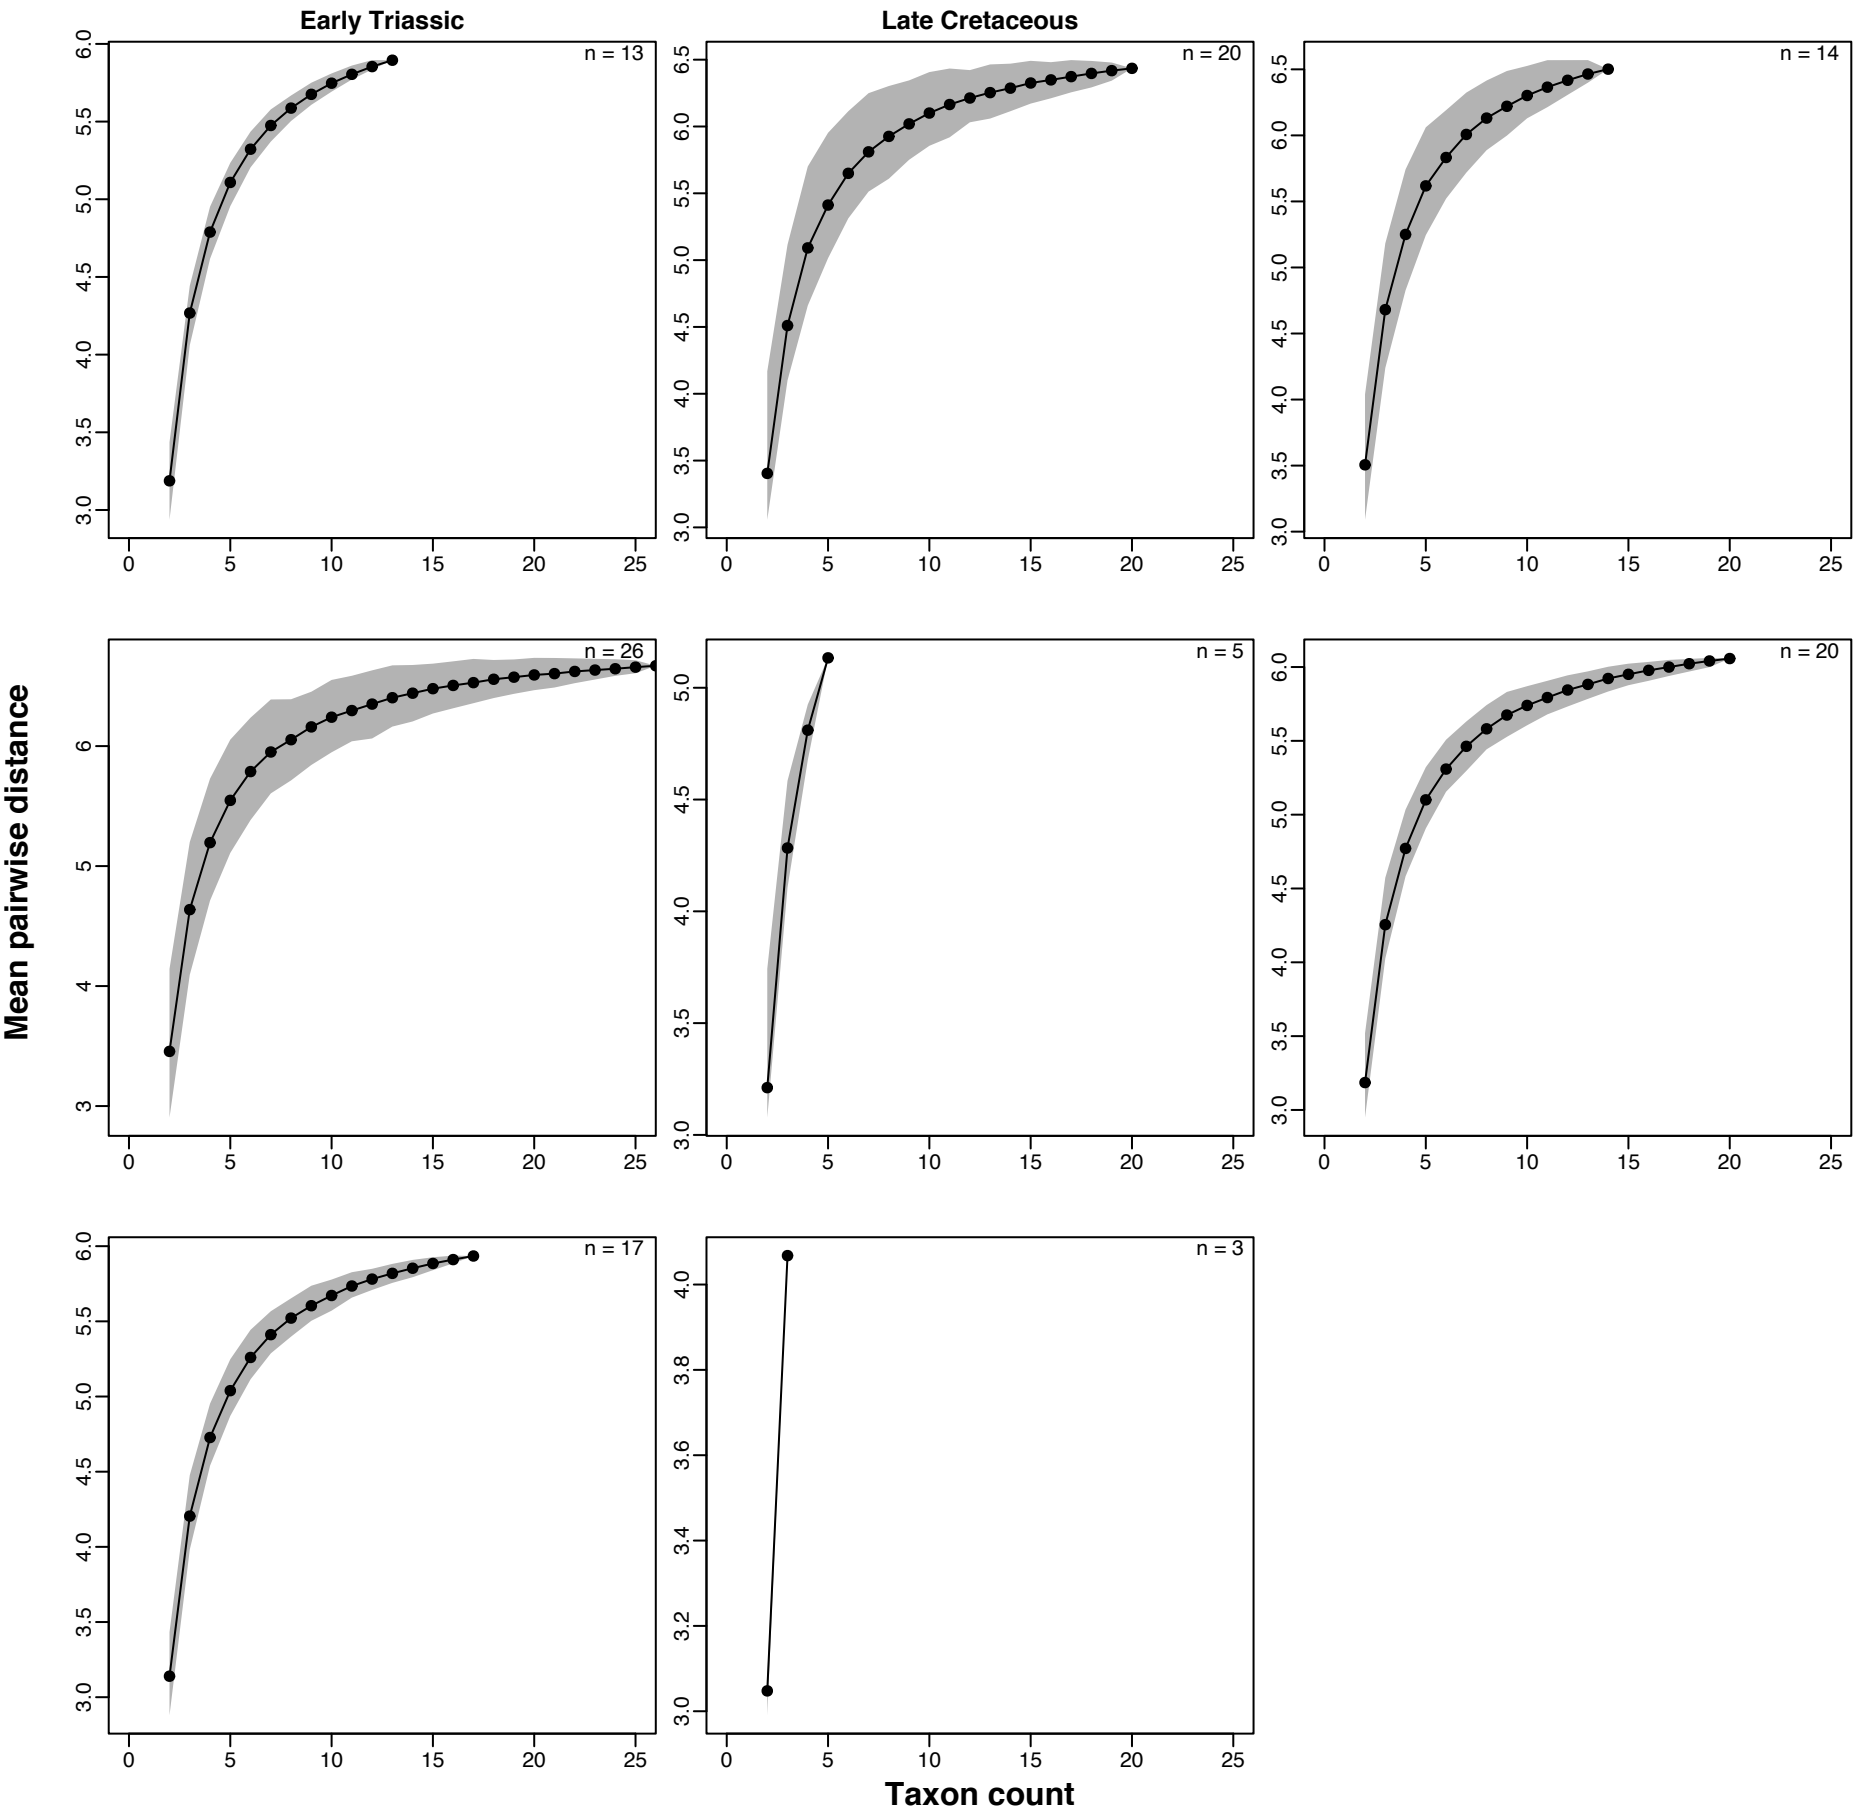

Rarefaction curves: mean pairwise distances of GED distance matrix in 10 Ma bins

Rarefaction curves: mean weighted pairwise distances of GED distance matrix in 10 Ma bins

**Rarefaction curves: mean pairwise distances of GOW distance matrix in epoch-length bins**
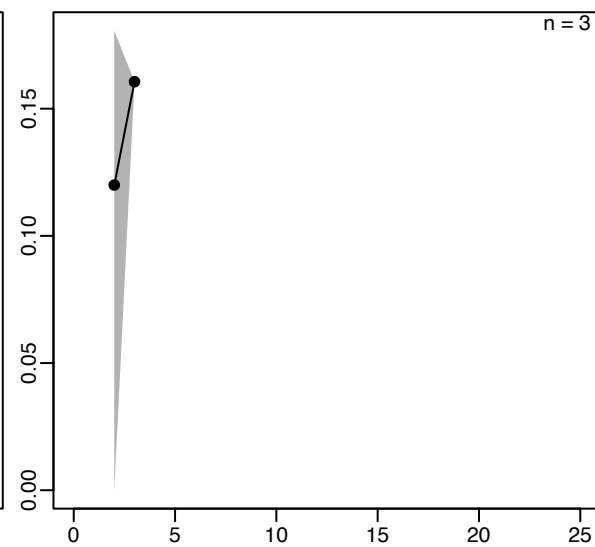

Rarefaction curves: mean weighted pairwise distances of GOW distance matrix in epoch-length bins

Rarefaction curves: mean pairwise distances of GOW distance matrix in 10 Ma bins

Mean pairwise distance (y-axis)

Taxon count (x-axis)

Rarefaction curves: mean weighted pairwise distances of GOW distance matrix in 10 Ma bins

Mean pairwise distance

Taxon count

Rarefaction curves: mean pairwise distances of MAX distance matrix in epoch-length bins
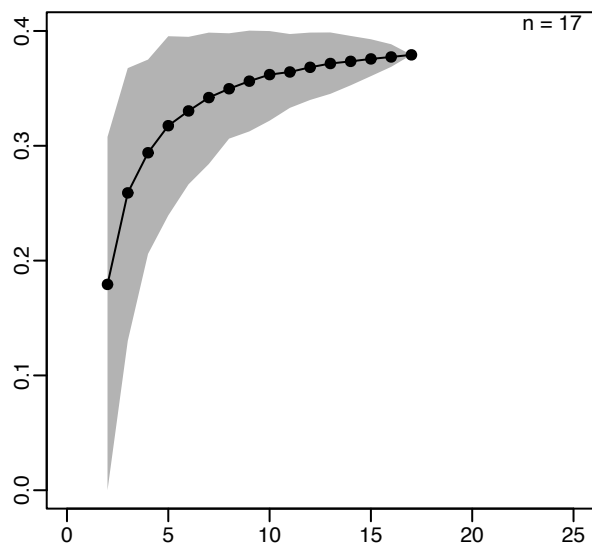

**Rarefaction curves: mean weighted pairwise distances of MAX distance matrix in epoch-length bins**
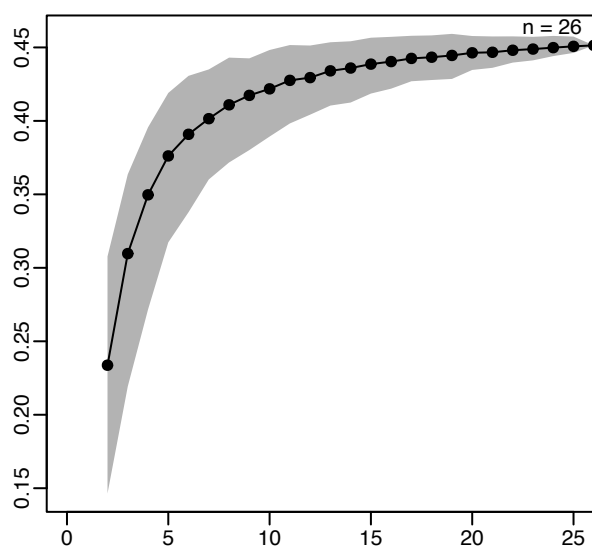

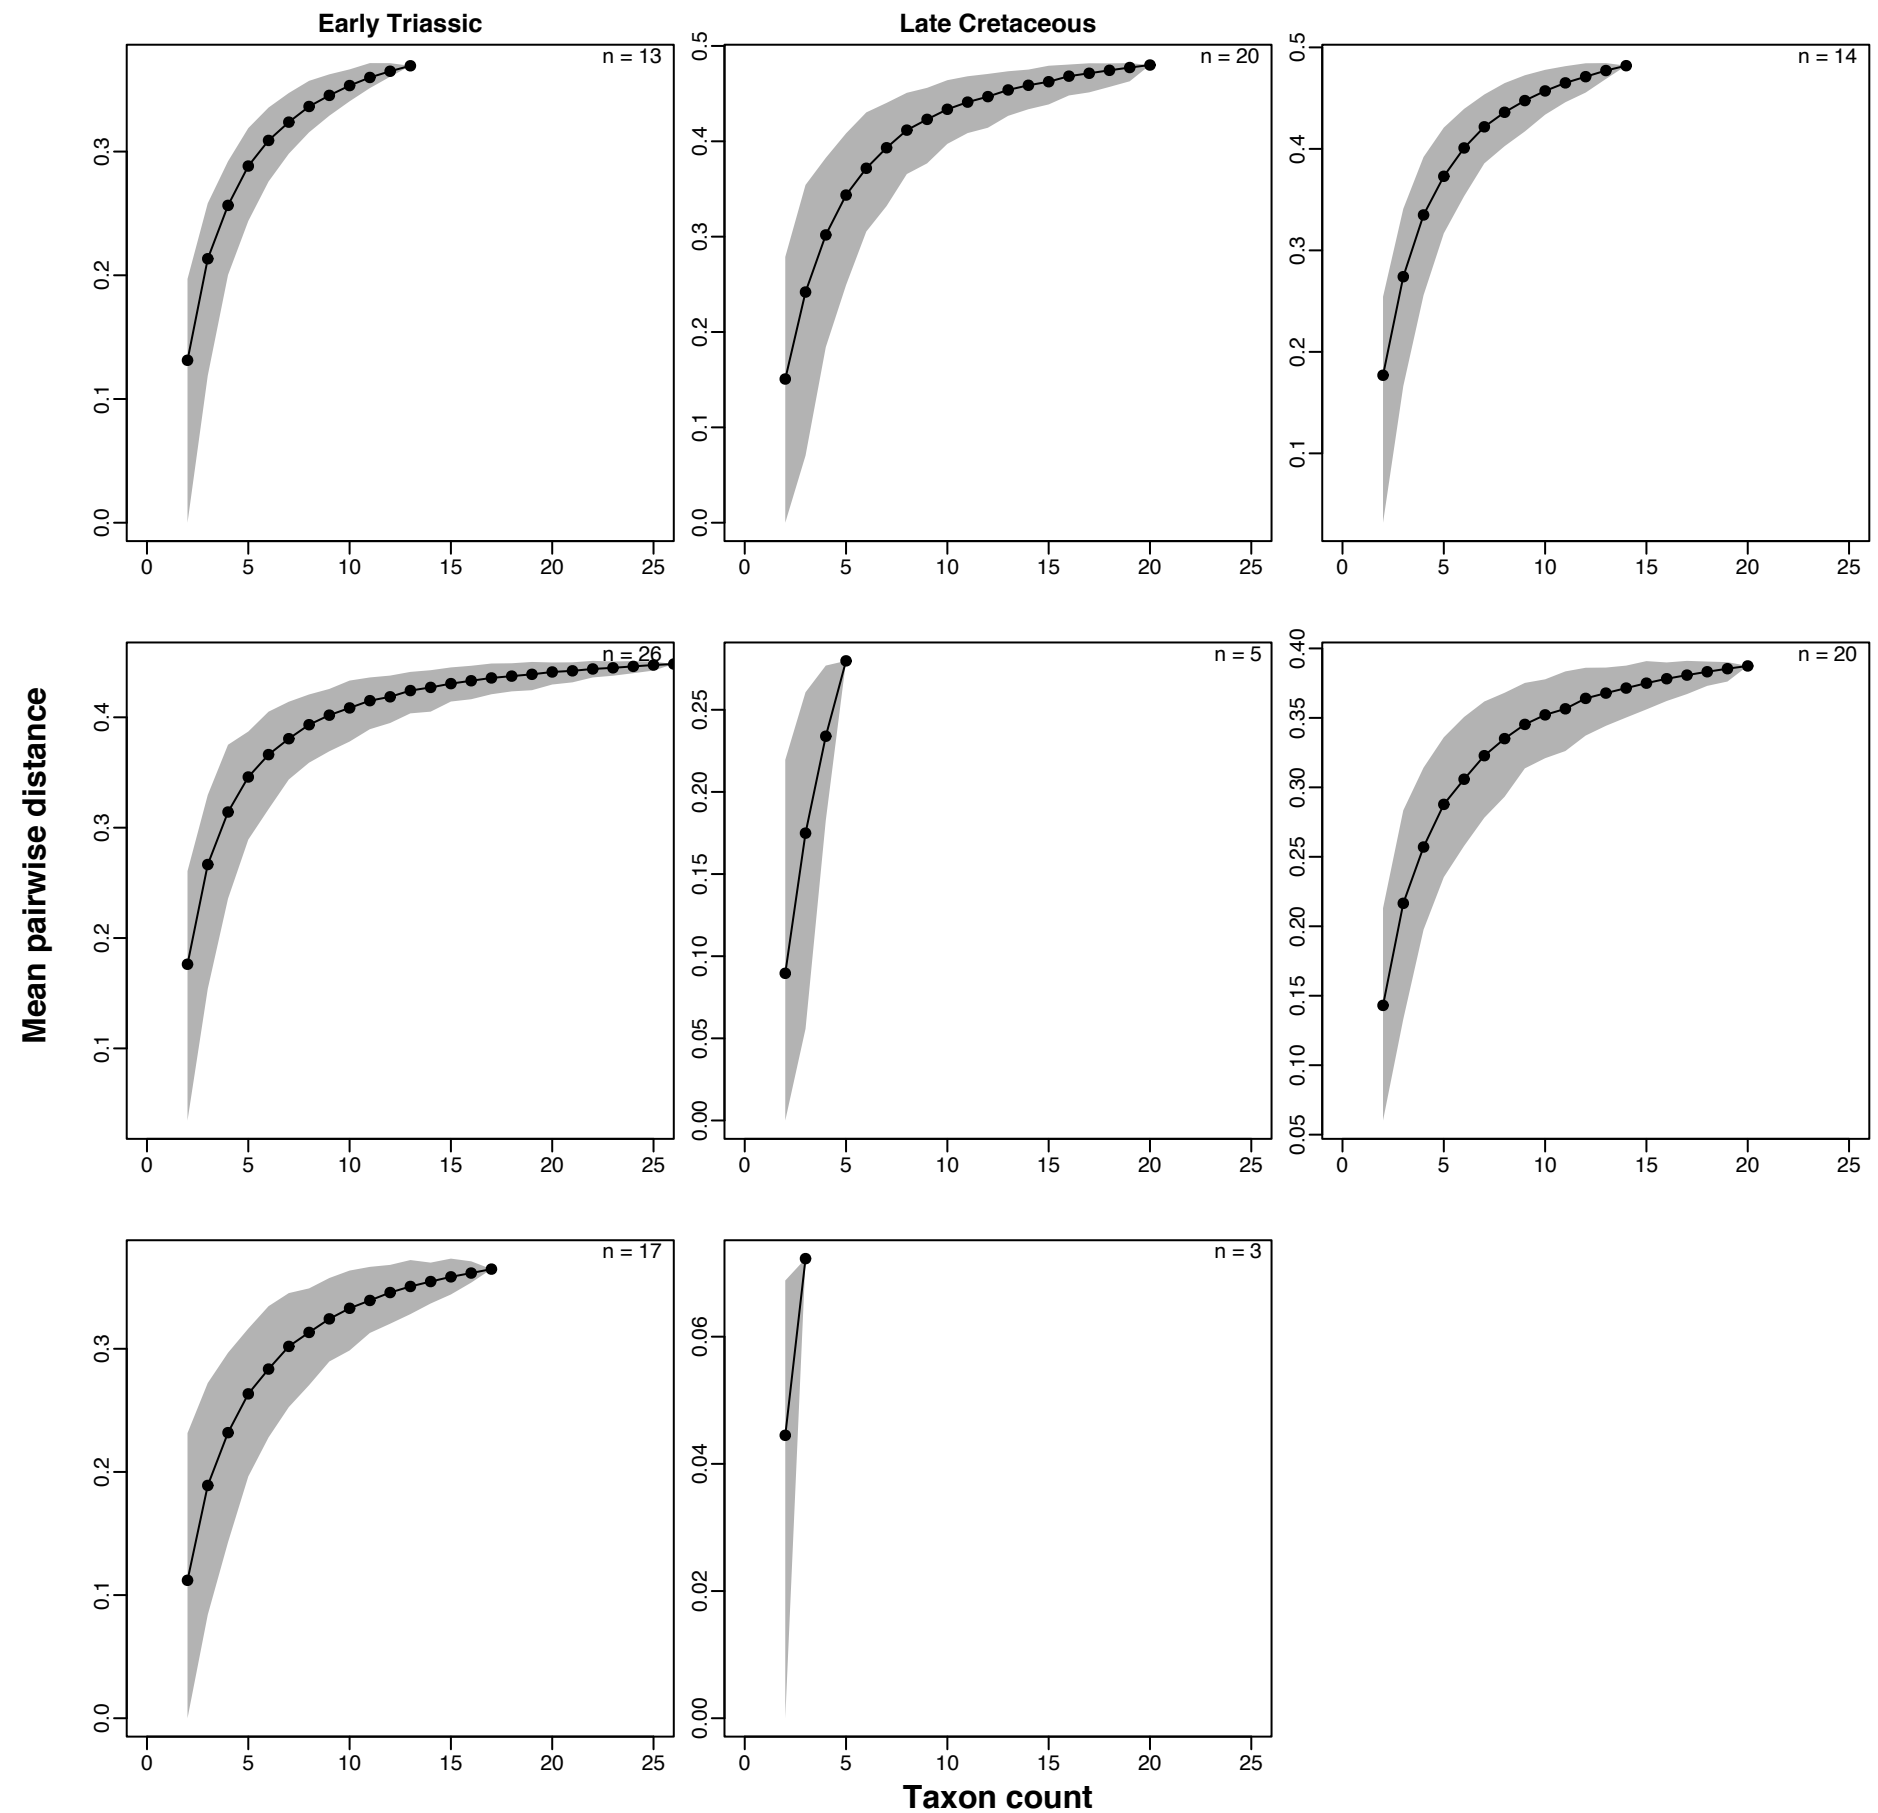

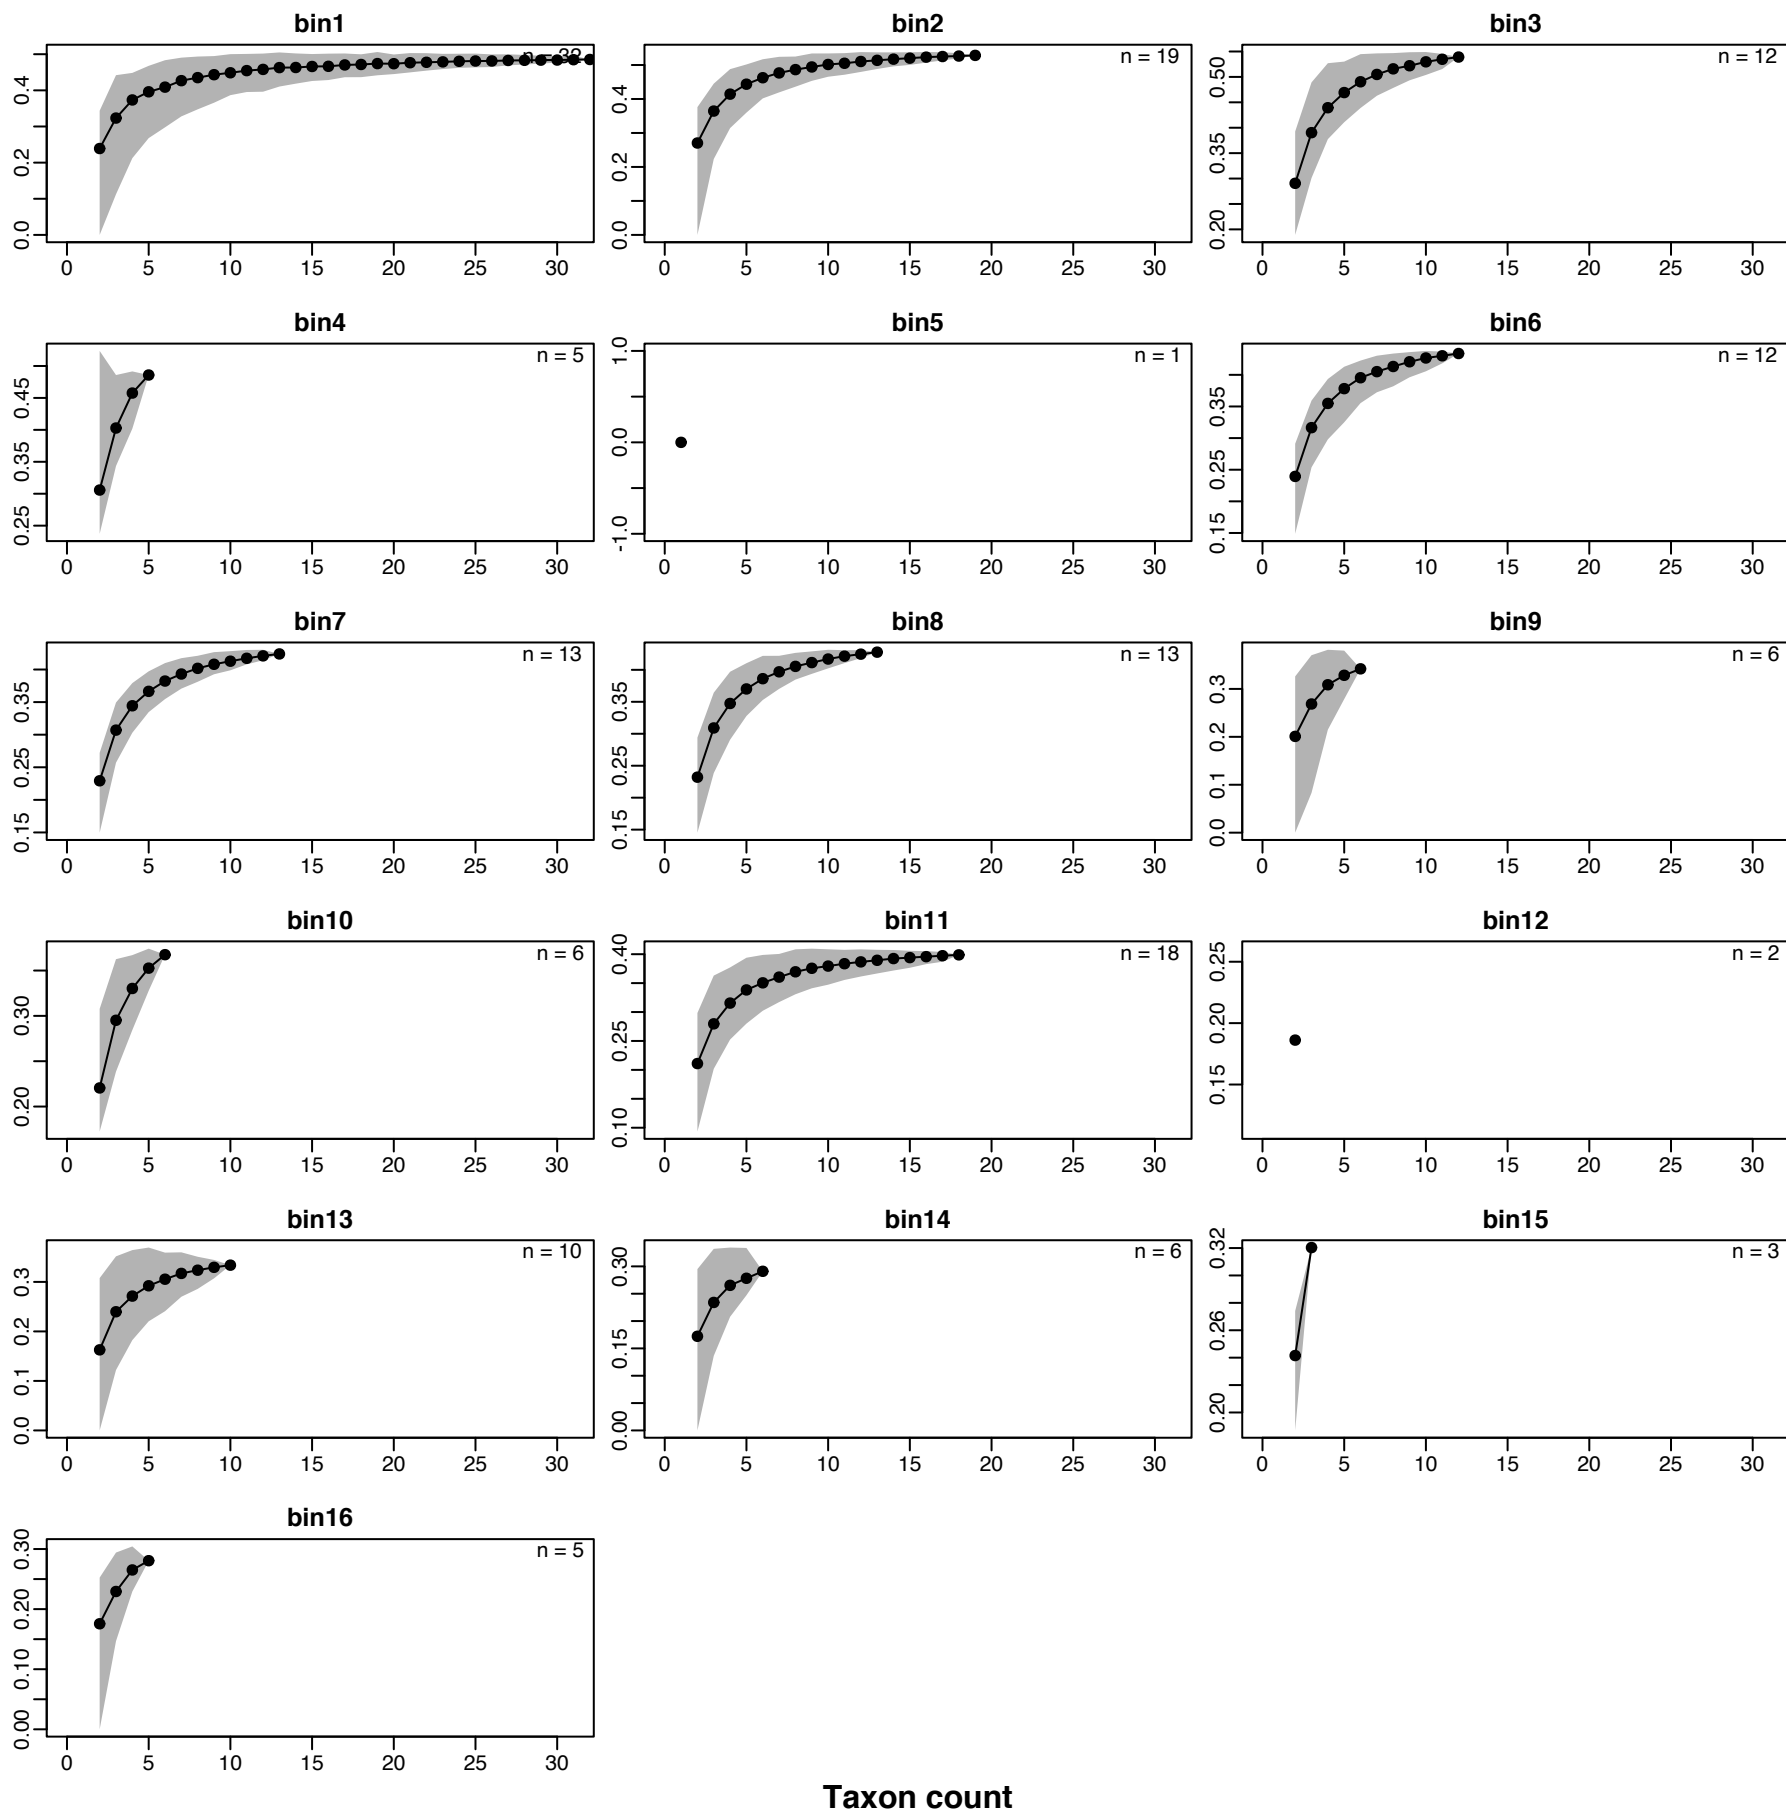

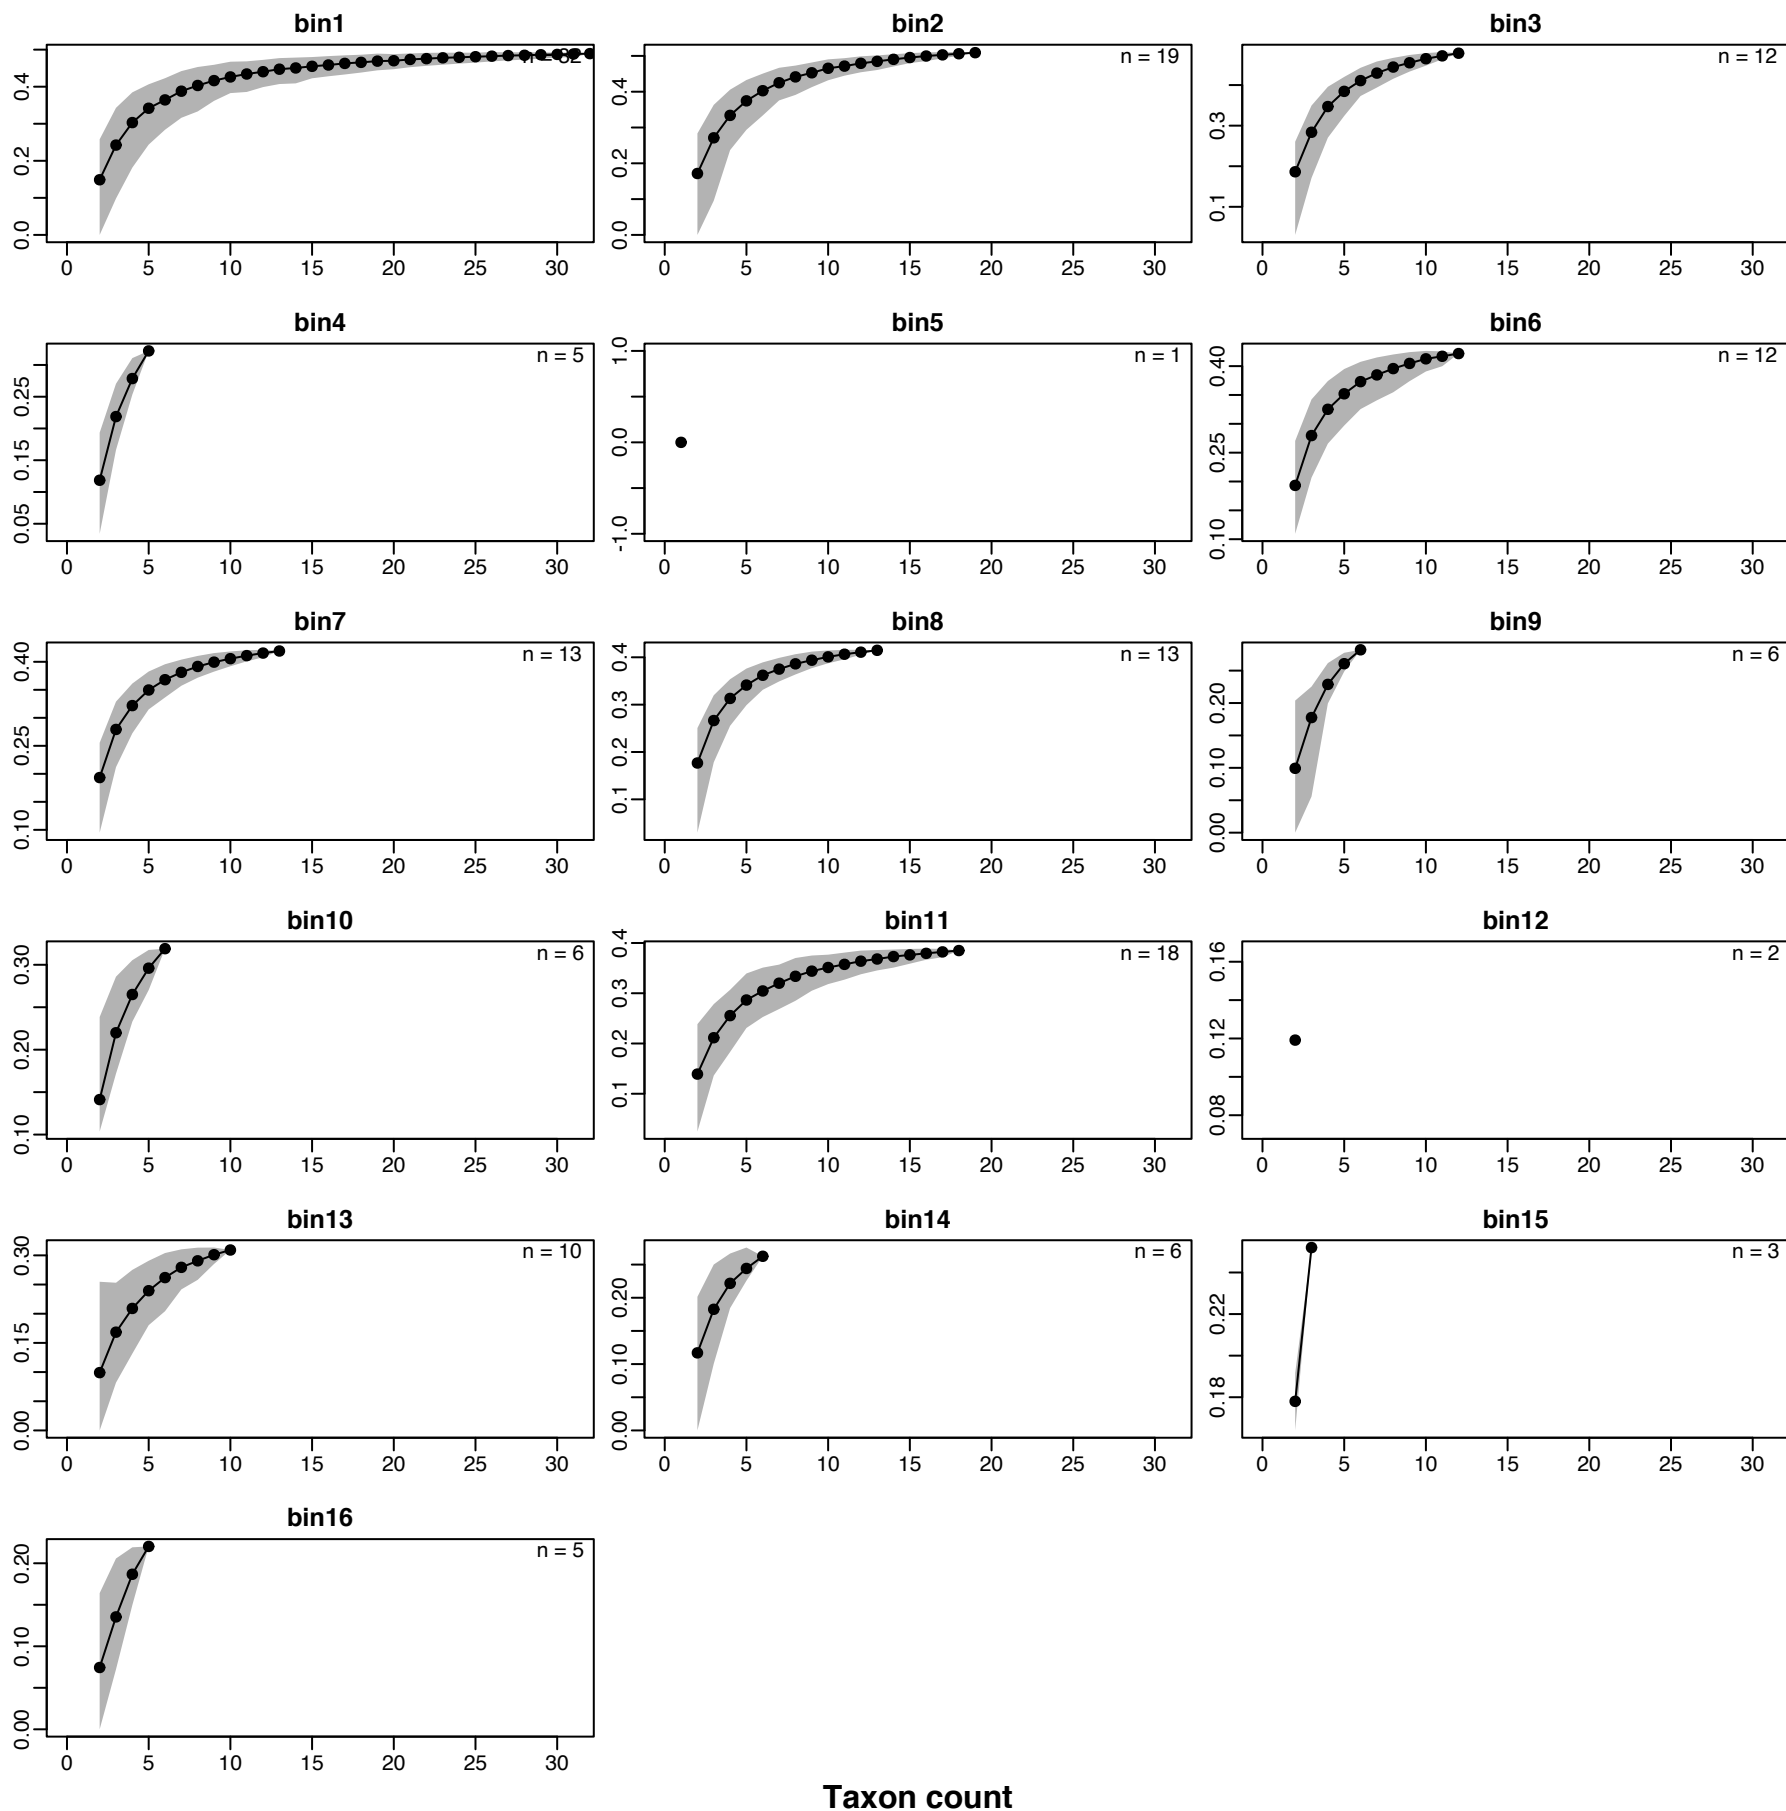

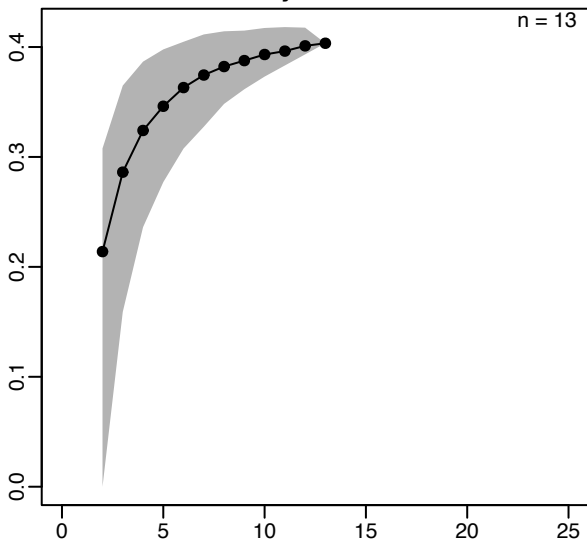

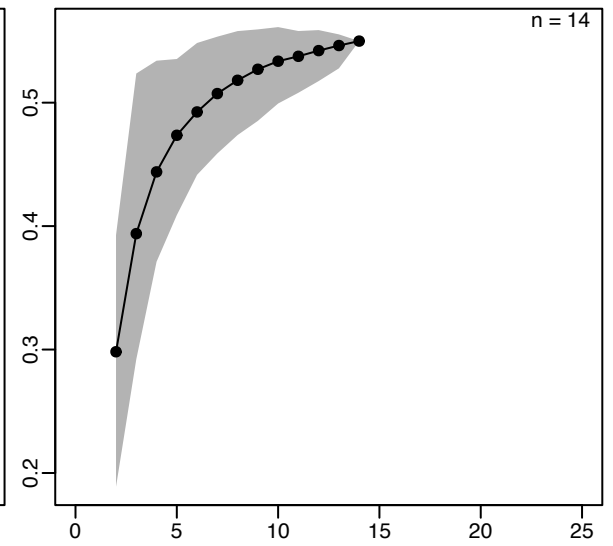

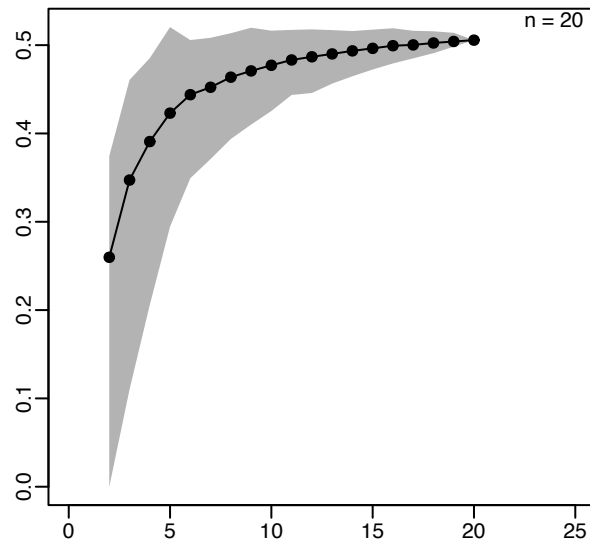

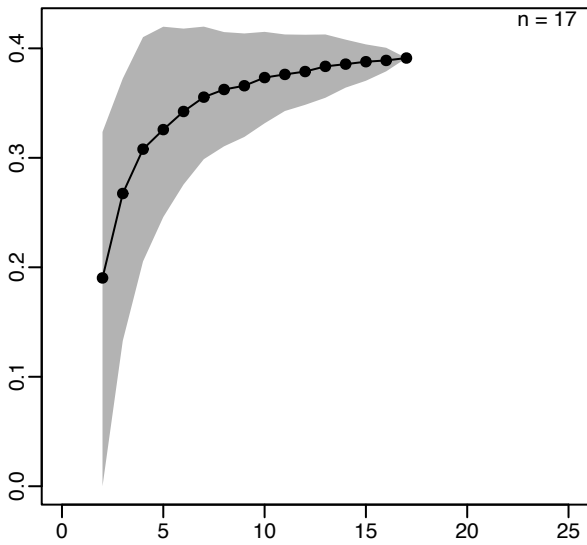

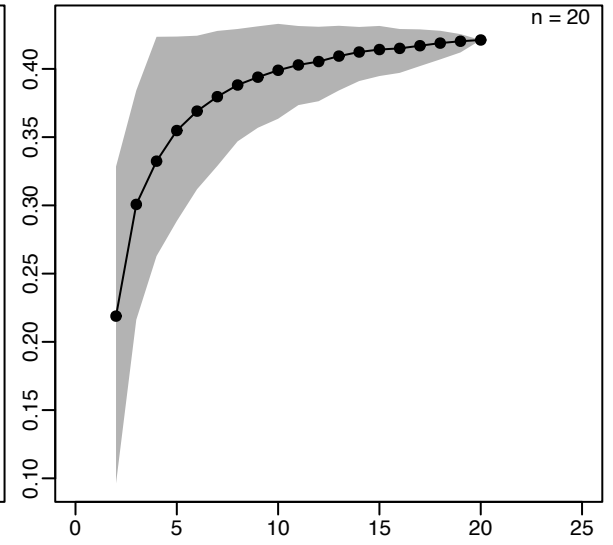

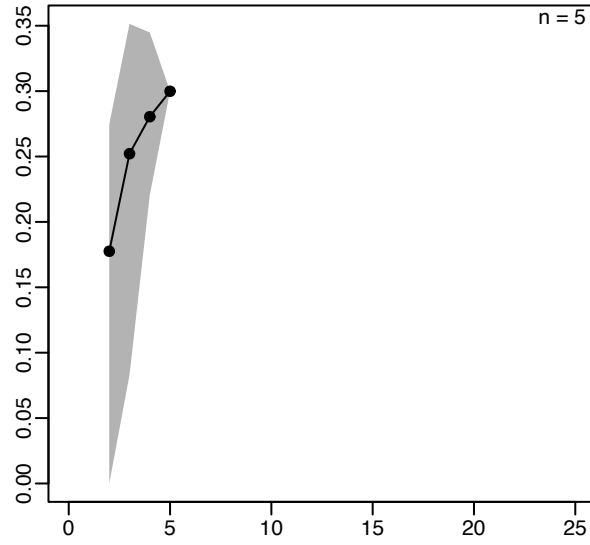

Early Triassic

Late Cretaceous

Mean pairwise distance

Taxon count

Rarefaction curves: mean pairwise distances of MAX distance matrix in 10 Ma bins

Mean pairwise distance

Taxon count

Rarefaction curves: mean weighted pairwise distances of MAX distance matrix in 10 Ma bins
